Bethel International United Methodist Church

I wanted to thank you for the card that was sent to me. It seemed to have come at the right time. I had been working on "Inventory" in our Celebrate Recovery Inside and was struggling. I dont get mail or have anyone to share feelings with, so I have held things in for so long and being ask to release them was one of the hardest things I have ever had to do.

I didn't do it on paper, cause there was to much hurt and pain, but I was able to bring it up and out of the deep, dark place that I had kept it buried all these years.

The card really meant alot, **all those names**, it let me know that somewhere out there are people who cares for me and others like me. Thank you so much for your kindness it helped me when I needed someone. I don't feel so much alone anymore. Thank you, I just cant say it enough. All those names, wow, I cant wait to meet all of you.

Thank you.

JESSE
